

## SPECIES MANAGEMENT PROFILE

*Blechnum spinulosum* small raspfern

**Group:** Polypodiophyta (ferns), Polypodiopsida, Polypodiales, Blechnaceae

**Status:** *Threatened Species Protection Act 1995:* **endangered**  
*Environment Protection and Biodiversity Conservation Act 1999:* Not listed

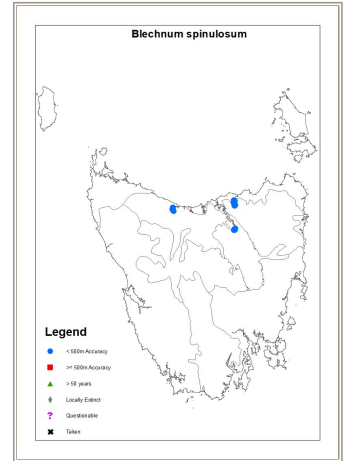

**Endemic:** Found in Tasmania and elsewhere

**Status:**

This species was previously known as *Doodia caudata* and *Blechnum rupestre*.

### Key Points

- Important:** Is this species in your area? Do you need a permit? Ensure you've covered all the issues by checking the Planning Ahead page.
- Important:** Different threatened species may have different requirements. For any activity you are considering, read the Activity Advice pages for background information and important advice about managing around the needs of multiple threatened species.

### Surveying

Key	Survey reliability more info
<b>M</b>	Best time to survey
M	Potential time to survey
M	Poor time to survey
M	Non-survey period

To ensure you follow the law - check whether your survey requires a permit. Always report any new records to the Natural Values Atlas, or send the information direct to the Threatened Species Section. Refer to the Activity Advice: Surveying page for background information.

<i>Blechnum spinulosum</i>	Spring	Summer	Autumn	Winter
small raspfern	S S O O N N	D D J J F F	M M A A M M	J J J J A A

- Mature plants are required for identification of this erect tufted fern as reproductive fronds differ from vegetative fronds. Fertile fronds emerge from December to April though the sori used for identification tend to shrivel through winter hampering identification.
- In Tasmania, the species is strictly riparian in habitat, occurring amongst boulders and along shaded banks of rivers and creeks.

### Further information

**Contact details:** Threatened Species Section, Department of Primary Industries, Parks, Water and Environment, GPO Box 44, Hobart, Tasmania, Australia, 7001. Phone (1300 368 550).

**Permit:** A permit is required under the Tasmanian *Threatened Species Protection Act 1995* to 'take' (which includes kill, injure, catch, damage, destroy and collect), keep, trade in or process any specimen or products of a listed species. Additional permits may also be required under other Acts or regulations to take, disturb or interfere with any form of wildlife or its products, (e.g. dens, nests, bones). This may also depend on the tenure of the land and other agreements relating to its management.
