

SPECIES MANAGEMENT PROFILE

Coopernookia barbata purple native-primrose

Group: Magnoliophyta (flowering plants), Magnoliopsida (dicots), Campanulales, Goodeniaceae

Status: *Threatened Species Protection Act 1995:* extinct
Environment Protection and Biodiversity Conservation Act 1999: Not listed

Endemic: Found in Tasmania and elsewhere

Status:

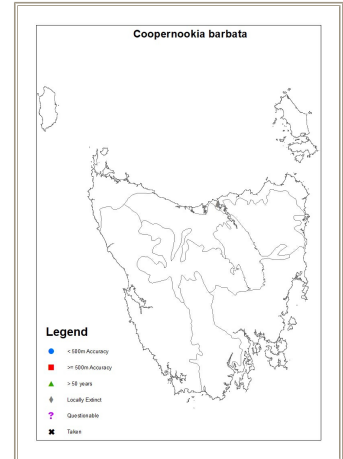

Key Points

- **Important:** Is this species in your area? Do you need a permit? Ensure you've covered all the issues by checking the Planning Ahead page.
- **Important:** Different threatened species may have different requirements. For any activity you are considering, read the Activity Advice pages for background information and important advice about managing around the needs of multiple threatened species.

Surveying

Key	Survey reliability more info
M	Best time to survey
M	Potential time to survey
<i>M</i>	Poor time to survey
M	Non-survey period

To ensure you follow the law - check whether your survey requires a permit. Always report any new records to the Natural Values Atlas, or send the information direct to the Threatened Species Section. Refer to the Activity Advice: Surveying page for background information.

- In Victoria, herbarium specimens of this ground trailing or erect shrub have been collected throughout the year with most collected from September to January.
- Some doubt remains as to whether the only specimen attributed to this species from Tasmania was collected from the State. It was reportedly collected by Robert Brown from Port Dalrymple in the early 1800s. In NSW it grows mostly in dry sclerophyll forest, often on sandstone.

Permit: A permit is required under the Tasmanian *Threatened Species Protection Act 1995* to 'take' (which includes kill, injure, catch, damage, destroy and collect), keep, trade in or process any specimen or products of a listed species. Additional permits may also be required under other Acts or regulations to take, disturb or interfere with any form of wildlife or its products, (e.g. dens, nests, bones). This may also depend on the tenure of the land and other agreements relating to its management.
