

SPECIES MANAGEMENT PROFILE

Cryptandra amara pretty pearlflower

Group: Magnoliophyta (flowering plants), Magnoliopsida (dicots), Rhamnales, Rhamnaceae

Status: *Threatened Species Protection Act 1995:* **endangered**
Environment Protection and Biodiversity Conservation Act 1999: Not listed

Endemic Status: Found in Tasmania and elsewhere

A complete species management profile is not currently available for this species. Check for further information on this page and any relevant Activity Advice.

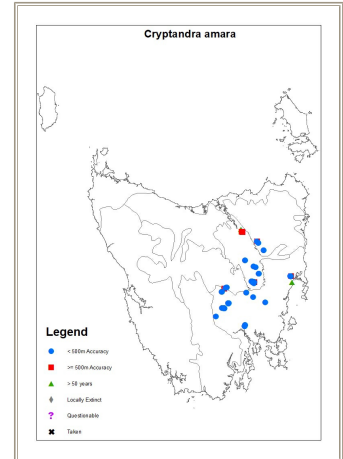

Key Points

- Important:** Is this species in your area? Do you need a permit? Ensure you've covered all the issues by checking the Planning Ahead page.
- Important:** Different threatened species may have different requirements. For any activity you are considering, read the Activity Advice pages for background information and important advice about managing around the needs of multiple threatened species.

Surveying

Key	Survey reliability more info
M	Best time to survey
M	Potential time to survey
M	Poor time to survey
M	Non-survey period

To ensure you follow the law - check whether your survey requires a permit. Always report any new records to the Natural Values Atlas, or send the information direct to the Threatened Species Section. Refer to the Activity Advice: Surveying page for background information.

<i>Cryptandra amara</i>	Spring	Summer	Autumn	Winter

- This small wiry shrub is most readily recognised when in flower, though its distinctive habit and foliage means that it can be identified at any time of year. The species produces abundant flowers, buds emerging in April and flowering from May to December, with a peak from August to October.
- In Tasmania *Cryptandra amara* grows in some of the driest areas of the State and is typically associated with fertile rocky substrates, its habitat ranging from near-riparian rockplates to grasslands or grassy woodlands.

Contact details: Threatened Species Section, Department of Primary Industries, Parks, Water and Environment, GPO Box 44, Hobart, Tasmania, Australia, 7001. Phone (1300 368 550).

Permit: A permit is required under the Tasmanian *Threatened Species Protection Act 1995* to 'take' (which includes kill, injure, catch, damage, destroy and collect), keep, trade in or process any specimen or products of a listed species. Additional permits may also be required under other Acts or regulations to take, disturb or interfere with any form of wildlife or its products, (e.g. dens, nests, bones). This may also depend on the tenure of the land and other agreements relating to its management.
