

## SPECIES MANAGEMENT PROFILE

*Hypolimnus pedderensis* Lake Pedder Earthworm

**Group:** Annelida (segmented worms), Oligochaeta (microdriles, earthworms), Haplotaxida, Megascolecidae

**Status:** *Threatened Species Protection Act 1995*: extinct  
*Environment Protection and Biodiversity Conservation Act 1999*: Extinct

**Endemic:** Endemic in Tasmania and restricted

**Status:**

The Lake Pedder Earthworm is known from a single collection from the sandy shores of Lake Pedder, found prior to the flooding of the lake for the generation of hydro-electric power generation. The species has not been detected since 1971, despite some targeted surveys of potential habitat. The species is now presumed to be extinct.

A complete species management profile is not currently available for this species. Check for further information on this page and any relevant Activity Advice.

### Key Points

- **Important:** Is this species in your area? Do you need a permit? Ensure you've covered all the issues by checking the Planning Ahead page.
- **Important:** Different threatened species may have different requirements. For any activity you are considering, read the Activity Advice pages for background information and important advice about managing around the needs of multiple threatened species.

### Further information

#### Listing Statement

**Cite as:** Threatened Species Section (2019). *Hypolimnus pedderensis* (Lake Pedder Earthworm): *Species Management Profile for Tasmania's Threatened Species Link*. <https://www.threatenedspecieslink.tas.gov.au/Pages/Lake-Pedder-Earthworm.aspx>. Department of Primary Industries, Parks, Water and Environment, Tasmania. Accessed on 23/9/2019.

**Contact details:** Threatened Species Section, Department of Primary Industries, Parks, Water and Environment, GPO Box 44, Hobart, Tasmania, Australia, 7001. Phone (1300 368 550).

**Permit:** A permit is required under the Tasmanian *Threatened Species Protection Act 1995* to 'take' (which includes kill, injure, catch, damage, destroy and collect), keep, trade in or process any specimen or products of a listed species. Additional permits may also be required under other Acts or regulations to take, disturb or interfere with any form of wildlife or its products, (e.g. dens, nests, bones). This may also depend on the tenure of the land and other agreements relating to its management.
