

## SPECIES MANAGEMENT PROFILE

*Sagina diemensis* tasmanian pearlwort

**Group:** Magnoliophyta (flowering plants), Magnoliopsida (dicots), Caryophyllales, Caryophyllaceae

**Status:** *Threatened Species Protection Act 1995:* **endangered**  
*Environment Protection and Biodiversity Conservation Act 1999:* **Endangered**

**Endemic:** Found only in Tasmania

**Status:**

A complete species management profile is not currently available for this species. Check for further information on this page and any relevant Activity Advice.

### Key Points

- **Important:** Is this species in your area? Do you need a permit? Ensure you've covered all the issues by checking the Planning Ahead page.
- **Important:** Different threatened species may have different requirements. For any activity you are considering, read the Activity Advice pages for background information and important advice about managing around the needs of multiple threatened species.

### Surveying

Key	Survey reliability more info
<b>M</b>	Best time to survey
M	Potential time to survey
M	Poor time to survey
M	Non-survey period

To ensure you follow the law - check whether your survey requires a permit. Always report any new records to the Natural Values Atlas, or send the information direct to the Threatened Species Section. Refer to the Activity Advice: Surveying page for background information.

- Flowers are required to confirm the identity of this cushion-forming, perennial herb. Herbarium specimens have been collected from late December to March.
- *Sagina diemensis* is restricted to dolomite substrates in the Mount Anne region and the Weld River in Tasmania's southwest. The species occurs in cracks and crevices on exposed dolomite outcrops at Mount Anne in shallow well-drained soils derived from solution pockets in the dolomite, and on sparsely vegetated dolomite rock ledges above the river at the Weld River site.

### Recovery Plan

**Cite as:** Threatened Species Section (2022). (.): *Species Management Profile for Tasmania's Threatened Species Link*. <https://www.threatenedspecieslink.tas.gov.au/Pages/Sagina-diemensis.aspx>. Department of Natural Resources and Environment Tasmania. Accessed on 19/8/2022.

**Contact details:** Threatened Species Section, Department of Natural Resources and Environment Tasmania, GPO Box 44, Hobart, Tasmania, Australia, 7001. Phone (1300 368 550).

**Permit:** A permit is required under the Tasmanian *Threatened Species Protection Act 1995* to 'take' (which includes kill, injure, catch, damage, destroy and collect), keep, trade in or process any specimen or products of a listed species. Additional permits may also be required under other Acts or regulations to take, disturb or interfere with any form of wildlife or its products, (e.g. dens, nests, bones). This may also depend on the tenure of the land and other agreements relating to its management.
