

## SPECIES MANAGEMENT PROFILE

*Thesium australe* southern toadflax

**Group:** Magnoliophyta (flowering plants), Magnoliopsida (dicots), Santalales, Santalaceae

**Status:** *Threatened Species Protection Act 1995:* extinct  
*Environment Protection and Biodiversity Conservation Act 1999:* Vulnerable

**Endemic:** Found in Tasmania and elsewhere

**Status:**

A complete species management profile is not currently available for this species. Check for further information on this page and any relevant Activity Advice.

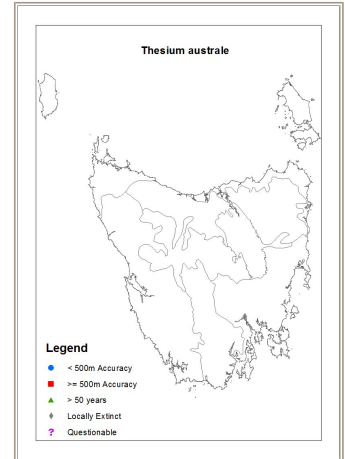

### Key Points

- Important:** Is this species in your area? Do you need a permit? Ensure you've covered all the issues by checking the Planning Ahead page.
- Important:** Different threatened species may have different requirements. For any activity you are considering, read the Activity Advice pages for background information and important advice about managing around the needs of multiple threatened species.

### Surveying

Key	Survey reliability more info
M	Best time to survey
M	Potential time to survey
M	Poor time to survey
M	Non-survey period

To ensure you follow the law - check whether your survey requires a permit. Always report any new records to the Natural Values Atlas, or send the information direct to the Threatened Species Section. Refer to the Activity Advice: Surveying page for background information.

<i>Thesium australe</i>	Spring					Summer					Autumn					Winter								
southern toadflax	S	S	O	O	N	N	D	D	J	J	F	F	M	M	A	A	M	M	J	J	J	J	A	A

- Flowering of this short-lived herbaceous shrub with wiry stems is predominantly in spring and summer (Flora of Victoria). The species has been collected throughout most of the year on mainland Australia, with most collections made between October and April. The species is presumed extinct in Tasmania, with the only dated collection made in March or April of 1804.
- In Tasmania, *Thesium australe* is known only from an 1804 collection from the Derwent River Valley. Suitable habitat for this species includes grassland and grassy woodland.

**Contact details:** Threatened Species Section, Department of Natural Resources and Environment Tasmania, GPO Box 44, Hobart, Tasmania, Australia, 7001. Phone (1300 368 550).

**Permit:** A permit is required under the Tasmanian *Threatened Species Protection Act 1995* to 'take' (which includes kill, injure, catch, damage, destroy and collect), keep, trade in or process any specimen or products of a listed species. Additional permits may also be required under other Acts or regulations to take, disturb or interfere with any form of wildlife or its products, (e.g. dens, nests, bones). This may also depend on the tenure of the land and other agreements relating to its management.
